

SPONDON SAHA

SQA Engineer | Manual & Automation Testing

Bank Colony, Savar, Dhaka • +8801993833032 • workspondon@gmail.com
• linkedin.com/in/spondonsaha

SUMMARY

Security-focused Software Quality Assurance (SQA) Engineer combining formal manual and automation testing training with hands-on offensive security experience. Skilled in functional, regression, REST API, GraphQL, Android application, and web application testing, with a strong ability to identify security defects that typical QA workflows miss. Actively hunting bugs on Bugcrowd, YesWeHack, and HackerOne, and building custom tooling to streamline test case management and vulnerability reporting.

WORK EXPERIENCE

Jr. Penetration Tester Intern | *EncryptEdge Labs*

Aug 2025 – Sept 2025

- Performed manual and tool-assisted security testing on web applications and REST APIs to identify functional and security defects with vulnerability assessment.
- Authored structured test/penetration reports with clear Proof of Concept (PoC), reproduction steps, severity ratings, and remediation guidance mirroring standard QA bug-report documentation practices.
- Gained practical exposure to bug bounty methodologies, exploitation techniques, and real-world red teaming scenarios.

ACHIEVEMENTS

- **NASA VDP Appreciation Letter** – Discovered and responsibly disclosed a security vulnerability within NASA's systems, formally acknowledged by the NASA security team.
- **Drexel University VDP Recommendation Letter** – Identified and responsibly disclosed an Information Disclosure vulnerability on Drexel University's domain, recognized with an official appreciation letter by the university security team.
- **Cambridge University Press Hall of Fame** – Discovered and responsibly disclosed 2 Subdomain Takeover vulnerabilities on cambridge.org, both accepted and acknowledged by Cambridge University Press.
- **PCB STORE Bug Hunting Competition - Winner** – Identified and reported IDOR, Broken Access Control, and Information Disclosure vulnerabilities; recognized as a winner for responsible disclosure.

PROJECTS

SQA TestSuite - Test Case Management Dashboard

spondonsaha.github.io/testsuite

- Built an interactive QA dashboard for managing and tracking 550 structured test cases across authenticated, unauthenticated, and mixed auth-state flows.
- Organized test cases by category, priority, and status (Pass / Fail / Skip / Pending) covering GUI, functional, and non-functional testing scenarios.
- Implemented real-time progress tracking and one-click status cycling to speed up manual test execution and reporting for QA test cycles.

CERTIFICATIONS

SQA: Manual & Automation Testing (In Progress) | *Ostad*

MAY 2026 – Nov 2026

- Manual Testing: SDLC/STLC, test case design, requirement analysis, bug life cycle, regression & exploratory testing

- API Testing: REST API testing with Postman, request/response validation, GraphQL query & schema testing
- Mobile & Web Testing: Android app testing fundamentals, cross-browser web application testing

Cisco Certified Network Associate (CCNA) | *National Academy For Computer Training And Research (NACTAR)* **Jan 2025 – July 2025**

- Network Fundamentals (OSI/TCP-IP models, IPv4/IPv6, subnetting)
- Routing & Switching (Static Routing, OSPF, VLANs, STP)
- IP Services (DHCP, NAT, DNS, NTP, QoS basics)
- Network Security (ACLs, port security, common threats)

Certified Ethical Hacker (CEH) | *Creative IT Institute* **May 2023 – October 2023**

- Footprinting, scanning, and enumeration techniques
- Vulnerability analysis and system exploitation
- Malware threats and reverse engineering
- Web application attacks (OWASP Top-10)

Programming in Python | *National Academy For Computer Training And Research (NACTAR)* **Dec 2024 – Jan 2025**

- Python programming (data types, control flow, functions, OOP)
- Django framework (models, views, templates, routing)
- SQLite database integration
- Project deployment and debugging

SKILLS & KNOWLEDGE

- **Testing Types:** Manual Testing, Automation Testing, Security/Penetration Testing, REST API Testing, GraphQL Testing, Android App Testing, Web Application Testing, Regression & Exploratory Testing
- **QA & Testing Tools:** Postman, JIRA, Burpsuite, Scrum
- **Security Tools:** Burp Suite, Nmap, Wireshark, John the Ripper, Hydra, Nessus, Metasploitable, Caido
- **Programming Languages:** C, C++, HTML/CSS, Python, Java, JavaScript
- **Other Software:** Cisco Packet Tracer, Canva, Google Docs, Google Sheets, Docker
- **Core Knowledge:** STLC/SDLC, Bug Life Cycle, XSS, OWASP Top-10, Bug Bounty Methodology, Network Defense, Linux

EDUCATIONAL QUALIFICATIONS

B.Sc. in Computer Science and Engineering | *Gono Bishwabidyalay* **Expected: Jul 2027**

Higher Secondary School Certificate | *Savar Laboratory College* **2022**

- Group: Science | GPA: 4.67

Secondary School Certificate | *Ichhar Kandi High School* **2020**

- Group: Science | GPA: 4.39

EXTRACURRICULAR ACTIVITIES

Campus Ambassador | *ICT Olympiad Bangladesh*

- Promoted ICT competitions and workshops on campus.
- Represented the organization at university-level tech fairs, connecting students with national ICT initiatives.

LANGUAGE PROFICIENCY

- **English:** Reading, Writing, Listening, Speaking – Intermediate
- **Bangla:** Reading, Writing, Listening, Speaking – Native
